HIRO ACADEMY

WELCOME TO HIRO ACADEMY

Welcome to Hiro Academy

For future education, we desired to develop students' abilities in an independent and a creative manner.

Therefore, we consider our school policies to be:

1. Develop student's abilities in an independent manner through building relationship with classmates and teachers
2. Support making student's dream come true

We place great emphasis on building "basic knowledge and skills", "the ability to think, to judge, and to express" and "create independent manner towards matters".

Also, we value special activities outside the classroom to learn a sense of solidarity and reliability through sharing those experiences with their classmates. We believe holding special activities is connected to nourishing a person's mind to think independently and respects different values. This person is well-balanced with knowledge, moral, physical health, and fulfilling linguistic activity for developing communication skills and feelings.

Our school is in Fukuoka City; the city is chosen as the greatest city to live in by British authoritative institution. The city is recognized as one of the safest cities (we rarely have disasters) in Japan. Moreover, the city is started to be recognized as a "start-up city" worldwide, and it is one of the most developing cities in Japan. Our school is in the center of Fukuoka city, and we support students to go to top Japanese universities by providing Japanese linguistic education.

We provide high quality of Japanese cultural and language educations. We at Hiro academy, is the Japanese language school to support developing students' abilities to make their dreams come true and expand their abilities to be global resources.
